Switches

Core & Distribution Switches

Catalyst 6500, 6500-E

This flagship switching solution delivers the most comprehensive set of features for converged networks.

Catalyst 4500, 4500-E

These switches feature intelligent network services for easy to manage unified networks for voice, data, and video

Edge & Wiring Closet

Catalyst 3750, 3750-E

Improves LAN efficiency & resiliency with StackWise technology.

Catalyst 3560, 3560-E

Fixed-configuration switches with PoE functionality, in Fast Ethernet and GigE configurations.

Catalyst 2960

Fixed-configuration, standalone, Intelligent Ethernet Switches with PoE and Fast Ethernet or GigE connectivity.

Routers

Unified WAN Service Routers

7600 Series

Carrier-class edge routers with integrated Ethernet switching, IP/MPLS routing, and personalized IP services delivery capabilities.

ASR 1000 Series

These aggregation services routers deliver industry-leading performance and reliability in a compact form factor.

7300 Series

Flexible, high-end CPE routers ideal for intelligent, multi-gigabit network applications.

7200 Series

High-performance, flexible services aggregation routers.

Integrated Service Routers

3800 Series

Modular platform for secure T3-E3 wire-speed converged services.

2800 Series

Multiservice access routers with enhanced security, performance, and memory.

Services

GBICs

- » WS-G5483
- » WS-5484
- » WS-X6416-GBIC

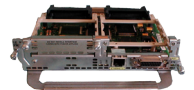

WICs

- » WIC-IDSU
- » WIC-2A/S
- » VWIC-2MFT-TI-DI

Network Modules

- » WS-6348-RJ-45
- » NM-4E
- » WS-X4148-RJ
- » WS-X6K-SUP1-2GE

The North American Systems Advantage

Our inventory of Cisco hardware can help maximize your IT investments, and provide you with spare parts at a lower cost and shorter fulfillment time.

We also offer refurbished Cisco product without the risk, shipping only original Cisco products.

NASI also provides maintenance for all Cisco equipment, saving customers up to 40% - 50% of what they are current paying, and allowing equipment to be supported beyond Cisco's end-of-support-life deadline.
