- » CPU+memory uniboard bundles
- » Fibre Channel cards
- » HBAs
- » disk & memory upgrades
- » disk backplanes
- » system boards
- » graphics cards

### CoolThreads

#### UltraSPARC T1

- »T2000
- »T1000

### Services

In addition to providing industry-best pricing on refurbished & unused Sun hardware, our account executives have experience with Sun systems, and are responsive to your needs. We fulfill orders more quickly than other VARs, meaning you get your equipment faster, and we can assist with determining what hardware works with your existing systems, and even help size & configure new systems.

With all hardware, we guarantee against equipment failure, and only ship genuine product that will qualify for Sun maintenance. Toll-free tech support is provided to our customers as well.

We also provide a variety of integrated solutions, third-party maintenance choices, and financing options.
